

Biography Project

Design an illustrated timeline of a famous American's life:

Directions:

1. Choose a famous American who has made a difference in the lives of others.
2. Complete research on this person, using at least two books or other sources. You should identify at least five important events in this person's life and how this person has improved the world.
3. Complete a rough draft of your final project.
4. When you are ready to create your book, you will need 4 pieces of letter size paper.
5. Fold each piece in half to create two panels on each paper.
6. Glue or tape the edges of the papers together vertically.
7. Once all of the papers are attached you will have eight panels. The timeline should fold like an accordion when completed.

Each panel should have a careful illustration and text. See rubric for more information about how your project will be assessed.

Biography Project

Design an illustrated timeline of a famous American's life:

Rubric:

Your writing must do the following for you to receive a grade of 3 or above:

- Text will include details
- Events of the person's life are in order and dates are shown
- It can be read easily (writing is legible)
- Panel 8 includes a complete paragraph on how this person has made a difference in the lives of others
- There are hardly any mistakes in using capitals, periods, and spelling

Your picture should:

- Be drawn in colored pencil or marker
- Show careful work
- Appropriately illustrate what you have written about on that panel

sample panels #1 and #4
