

Angel Child, Dragon Child (Tune: Football "Goodbye")

By H. Nolan

Angel child...dragon child
Was so bashful...meek and mild

Tried to listen...in the class
Waited long for...time to pass

Often teased...for her clothes
Red-haired boy...laughed at those

Started fighting...in the snow
Principal came...he said "No!"

Raymond cried...he was sad
Then together...they were glad

Hoa helped...told him why
Why her mother...couldn't come by

He felt bad...for his friend
Had a thought then...didn't pretend

He would help...her mother roam
Raised the money...she came home

Angel child...Dragon child
Saw her mother...really smiled
