

Kids Did It!
OCR 3rd grade Unit 5 Lesson 4
Readers Theatre

Mac: These computer glitches are driving me crazy!

Neo: I know what you mean. My automated cake maker keeps malfunctioning.

Mac: Life was much easier when everything was done without technology and gadgets.

Neo: Let's go move to a cabin up in the mountains and live the simple life.

Mac: We're going to have to sell our stuff.

Neo: O.K. first we have to get the merchandise prepared for sale.

Mac: Would it be profitable to advertise?

Neo: I would advise that we should.

Mac: When do we launch our big sale?

Neo: I don't know. What would we do with the money anyway?

Mac: You're right. We don't need money for the simple life.

Neo: We could just donate everything to charity.

Mac: This has been a real educational experience.

Neo: One question, who will support us?

Mac: We could ask our rich uncle to send us food and supplies every week.

Neo: Wouldn't that defeat the purpose of living the simple life?

Mac: I want a simple life, not a miserable life.

Neo: I like the way you think.
