Book 57 Crow, Boat, and Boat

If there is a strong wind, a sailboat will go fast. If there is no wind, a sailboat will not go.

A rowboat will only go fast if Goat and Crow use the oars to row.

Boar and Toad are on the shore. They want to go in a rowboat with Crow and Goat.

It is hard work to row a boat. Goat and Crow groan and moan.

Next time we want to sail, we must get a boat with a sail. I do not want to row.

The farmer has a boat but his boat will not float. It goes down, down, down in the water.
