

On The Go (Tune: Streets of Laredo)

**When people are moving, they always have something
To carry, to move with them day after day
Like babies, and baskets, on heads and on shoulders
On horses and donkeys and camels, they ride**

**Wheels make things go so much faster and smoother
Wheels can be pedaled, or they can be pushed
Maybe they're pulled by the ponies or oxen,
People can pull them along if they wish**

**Wheels can be powered by motors in busses,
In trains, and in trolleys, and monorails too
People can travel on boats in the water
Push them with poles or use wind in the sails**

**People can fly way up high in a jet plane
Or go straight up in a helicopter
Rockets will take us to faraway places
Faraway travel like "man on the moon!"**

H. Nolan
